DESMI BWMS Fast Track

Fast Delivery of Ballast Water Management Systems
Are you in urgent need of a ballast water management system that can be installed easily and quickly? DESMI Ocean Guard supplies a selection of loose components and skid mounted ballast water management systems within four working weeks (one month).

You get a fully compliant system that is easy to install. The system is fully automatic and can be completely integrated into your ship’s automation system.

No matter which system you choose, you are guaranteed a system with IMO and USCG type approval and the following benefits:

- The smallest footprint in industry
- Only system in the world with integrated stripping solution
- Filter and UV unit in seawater resistant Nickel-Alu-Bronze
- Two hours’ holding time on USCG TA certificate
- No salinity or temperature limitations
- 100% chemical free treatment
DESMI Ocean Guard supplies a selection of loose components and skid mounted ballast water management systems within four working weeks (one month).

The terms of delivery are simple - four weeks (or one month) ex works Noerresundby, Denmark.

All you have to do is to tell us the delivery address and whether you will install the system yourselves or we are to help you.

Our skilled service engineers are ready to assist you. It is as easy as plug and play - and you get an outstanding performance.

The colour-marked systems can be delivered on fast track within four working weeks (or one month).
